

BuildSafe AI Recommendations

Infrastructure: Mississippi River Crossing (BRIDGE)

Location: 29.9511, -90.0715

Risk Level: NORMAL (52%)

Priority: MEDIUM

Recommended Actions:

1. Schedule professional assessment within 30 days
2. Address high-severity violations as top priority
3. Monitor traffic load limits
4. Conduct quarterly structural inspections

Compliance Violations:

- Span exceeds safe limit [CRITICAL]
- Too few traffic lanes for bridge width [MEDIUM]
